- *Dense urethane foam insulation provides efficient and economical hot water storage*
- *Ideal for residential and commercial use*

Introducing the new AMTROL® StorageMate®

StorageMate is the newest addition to the world-famous line of AMTROL hot water tanks. It increases your hot water storage capacity when it's used with tankless coils or your existing water heater. It's the perfect addition to homes and businesses that require large amounts of readily available hot water for applications like whirlpool baths, hot tubs, dishwashers and laundry machines.
