

MIXING VALVES

1/2" & 3/4" Thermostatic

100 PSIG Working Pressure

Construction

Material	Brass Body
Connections	Sweat

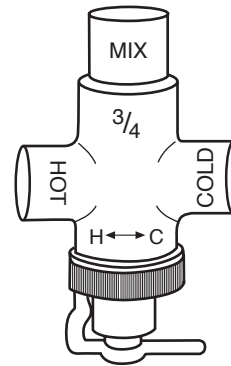

The Amtrol Mixing Valve is constructed with an adjusting handle for quick and easy adjustment of mixed water temperature. A turn of the handle sets the temperature within a range of 110°F to 170°F.

Performance

Maximum Working Pressure	100 PSIG (6.9 bar)
Maximum Inlet Temperature	200°F
Temperature Adjustment Range	100° to 170°F
Warranty	1 Year

Features

- Standard connection locations.
- Stainless steel return spring.
- Lever-type adjustment.
- Sweat copper connection for easy installation.
- Knurled cap permits easy removal of thermostat assembly during installation.
